# A HOME AWAY FROM HOME

The Ronald McDonald House is a home-away-from-home for families of children receiving medical treatment for a serious illness or injury at a nearby medical facility. It is also a place where children who are receiving outpatient treatment are able to spend time with their families in a warm and cheerful environment.

The House serves approximately 700 families per year from communities throughout Southern Arizona, as well as the surrounding region. Our families are from all walks of life, seeking treatment for illnesses such as cancer, birth defects, prematurity and life-threatening trauma.

## Ronald McDonald Family Room at the Diamond Children's Medical Center

The Ronald McDonald Family Room offers families of pediatric patients a place to relax, away from the stresses of the hospital, while still being close to their children.

Ronald McDonald House Charities understands that when you have a seriously ill or injured child in the hospital, going home to relax, eat a snack or check in with family via e-mail, seems just too far away. The Ronald McDonald Family Room offers families privacy and personal comforts through one of the most difficult times in their life.
